Description After Vivienne's death was reported to the jurisdictional vital records office either via an A04 message (if Tester is using HL7 V2.6) or C-CDA from the EHR, an update is made to correct the decedent's birth date in her hospital medical record from "1984" to June 6, 1984. The value for the decedent's age at death was updated in the medical record as well. The updated record is transmitted either via an ADT^A08 message (if Tester is using HL7 V2.6) or C-CDA from the EHR to the jurisdictional vital records office.
